DEFENSE SYSTEM

Use This Product To:

Use Other Raid® Products To:

KILL BUGS AT THE SOURCE

*Use indoors in corners, along walls and near entry points to kill ants where they hide. For maximum effectiveness, place all baits at the same time. Avoid placing baits directly on top of surfaces treated with a Raid® spray product to make sure ants can bring the bait back to where they hide.

ATTACK
BUGS

KILL BUGS ON CONTACT

*Use a Raid® Ant Killer or Raid® Ant & Roach Killer spray product to kill ants on contact. Avoid spraying near baits to make sure ants can bring the bait back to where they hide. Read the label to find the right product for your bug problem.

PREVENT
BUGS

KEEP BUGS OUT

*Use a Raid MAX® Bug Barrier product to keep ants out. Read the label to find the right product for your bug problem.

KILLS ANTS

For Household Use:

- CLOSETS
- BASEMENTS
- ATTICS

- RECREATION ROOMS
- LIVING AREAS
- KITCHENS

- BATHROOMS
- DINING ROOMS
- PANTRIES

- FOOD STORAGE SHELVING
- WASTE RECEPTACLES
- ETC.

Ants are attracted to the bait in Raid MAX® Double Control Ant Baits. The food is carried back to the nest ... **TO DESTROY THE ENTIRE COLONY.**

This is how Raid MAX® Double Control Ant Baits work.

1. Raid MAX® Double Control Ant Baits fit snugly in corners and along paths commonly traveled by ants.
2. Ants are attracted to the bait to feed.
3. Ants eat the bait and return to nesting area to die.
4. Bait carried back to the nest continues to kill other ants.

ANTS CRAWL IN TO EAT

CRAWL AWAY TO DIE

DIRECTIONS FOR HOUSEHOLD USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For maximum effectiveness, use all baits at one time and replace every three months.

1. Separate baits before placement.
2. For thorough ant control, all four baits must be used at one time. For LARGER KITCHENS or PARTICULARLY HEAVY INFESTATIONS, we strongly recommend using additional baits.
3. For best results, place the baits next to the wall along baseboards, in corners, under sinks, in cabinets and near plumbing fixtures. You can even place baits in cabinets. Do not contaminate food or food products or food preparation surfaces, dishes, kitchen utensils and food containers.
4. Baits work best on horizontal surfaces touching corners and walls.
5. Ants will begin eating the bait immediately and you should expect to see fewer ants within days.
6. Replace ALL baits every three months to keep ants from returning.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry area inaccessible to children. Do not store above 130°F. **DISPOSAL:** If empty: Do not reuse the bait station. Place in the trash or offer for recycling if available. If partially filled: Call your local solid waste agency or call 800-529-3394 for disposal instructions. Never place unused product down any indoor or outdoor drain.

TIPS

- Remove food spills and exposed food. Store food in sealed containers.
- Caulk any points where ants enter into wall voids, cracks and crevices including entry points from outside or neighboring units.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling.

FIRST AID

- Call a poison control center or doctor for treatment advice.
- **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
